Discussion: Consider: What is it? What is your interpretation rationale? How does this context relate to surrounding contexts? Have there been post-depositional processes? Are there special characteristics of this context? How was this context formed? What do you think is the origin of this context? It is a fill of C645 which truncate C644 which is natural soil. It's west to east. Didn't excavate at 2023 season. (The pottery is from cleaning).
