<p>Discussion: Consider: What is it? What is your interpretation rationale? How does this context relate to surrounding contexts? Have there been post-depositional processes? Are there special characteristics of this context? How was this context formed? What do you think is the origin of this context?</p> <p>cleaning the south limit Stone Structure. The stone is selected, similar size and most of them are round, maybe were collected from river side. The soil outside of stone is quite hard and clayish. for understanding whether is a cut or not, we cut the area from middle which to make it align to the sontage of C604.</p>
