<p>Discussion: Consider: What is it? What is your interpretation rationale? How does this context relate to surrounding contexts? Have there been post-depositional processes? Are there special characteristics of this context? How was this context formed? What do you think is the origin of this context?</p> <p>Q11 is a test pit to try and identify the bottom of the house. Some pieces of pottery were large and laid flat. Highly disturbed by animal burrows.</p>
